

RegTech. AI. Integration.

Technology that solves real enterprise problems - from regulatory assurance and intelligent automation to enterprise integration and Saudi market enablement.

OUR FIVE LEAP CONVERSATIONS

01 / FLAGSHIP PRODUCT

EasyFatoora

E-Invoice Assurance & VAT Compliance

- Source-to-ZATCA reconciliation
- Sales, returns & credit notes
- Exception management
- Missing / duplicate detection
- VAT-period assurance & close
- Evidence & audit trail

For CFO • Tax • Finance • CIO • Internal Audit

Ask: "Can you prove every transaction reached ZATCA and is represented correctly in your VAT return?"

02 / GROWTH SERVICE

Enterprise AI

Move AI from experiment to business outcome

- Finance automation
- Reconciliation agents
- Customer-service AI
- Document intelligence
- Collections assistants
- Enterprise knowledge agents

For CEO • CIO • COO • CFO • Digital • AI Leaders

Ask: "Which repetitive process would create the biggest impact if 60–80% of the manual effort disappeared?"

03

R360

Regulatory Data Assurance & Reporting

Validate → reconcile → remediate → submit.
SIMAH, SIJIL and governed regulatory reporting with rules, exceptions, data lineage and auditability.

CTA: Regulatory Reporting Assessment

04

Enterprise Integration

Connect ERP, platforms, data & APIs

SAP • Oracle • Dynamics • Sage • Odoo • Tally
ERP-to-SaaS, POS-to-ERP, government APIs, banking platforms, middleware and data integration.

CTA: Discuss Your Integration Challenge

05

Saudi Technology Enablement

Your technology. Our Saudi delivery capability.

For global AI / SaaS / Fintech / RegTech vendors.

Ask: "Do you already have a Saudi implementation partner?"

Choose the challenge worth discussing.

Meet Zollal during LEAP for a focused conversation around e-invoice assurance, enterprise AI, regulatory reporting, integration or Saudi technology partnerships.

E-Invoice / VAT • AI & Automation • Regulatory Reporting • Integration • Saudi Partnerships
